

Weapons Detection System in Use

The MSD of Pike Township and Pike Police will utilize a Weapons Detection System for all participants, coaches, officials, administration, and spectators for the 2025 Senior State competition on March 13-16th, 2025. Upon entry into the building, everyone will pass through the system before entering the aquatic center. To ensure there are not any issues with the WDS, please note the following:

Keys, wallets, and small electronic devices may remain in bags and/or pockets!
Larger electronic items, like computers, tablets, handheld game devices should be removed from bags as these will set off the WDS.

Thank you for your patience and understanding as we seek to keep a safe environment for our guests and our student body here at Pike High School.
